

Engineering, standards and certifications

Angst+Pfister's engineering team develops new products every year that are specifically designed for agricultural and construction machinery. Our solutions comply with the most advanced and updated industry standards and regulations. Partnering with Angst+Pfister gives our customers the competitive advantage. Experience shows that co-design projects are the best solutions to reduce time-to-market delivery.

We then test and certify our innovations at laboratories globally recognized for their expertise. We take pride in our quality management process, which is why Angst+Pfister leads the market in product conformity within the Agricultural and Construction Machine Industry.

Specializing in co-development and engineering of cabin mounts, engine mounts and axle sealing applications.

Meeting the highest industry standards

Our customers include

Services from Angst + Pfister Group

Angst+Pfister – Your supply and solutions partner

The Angst+Pfister Group is a leading international technical manufacturer and service provider for high-end industrial components. As a supply and solutions partner for engineering plastics, sealing, fluid handling, drive, and antivibration technology as well as

sensors, Angst+Pfister combines efficient logistics concept with comprehensive product application engineering services. Besides providing customer-specific parts, the Group offers a product range consisting of approximately 100,000 standard items.

Angst + Pfister – Your Partner for Agricultural and Construction Machines

Ensuring smooth operation of heavy machines and equipment

For over half a century, Angst+Pfister has served the leading manufacturers and operators within the Agricultural and Construction Machine Industry. In addition to our extensive standard product ranges, our interdisciplinary technical know-how enables us to supply special customized solutions that are precisely tailored to customers' specific requirements.

Working together to design successful solutions

APSOvib® Antivibration Technology

A broad product line specifically designed to dampen vibrations and minimize noise emissions.

Cone Mounts, Machine Mounts & Bushings 1

Gas Springs 3

Multi Couplings & Quick Couplings 5

Semi-finished & Finished Products 7

Sound Absorption Material & Damping Mats 2

Buffers 4

Suction & Pressure Hoses 6

APSOfluid® Fluid Handling Technology

High-quality engineering solutions for all hydraulic hose lines, as well as quick couplings and fittings.

APSOplast® Engineering Plastics Technology

High-tech products made out of engineering plastics.

APSOseal® Sealing Technology

High dependability with quality O-Rings, rotary shaft seals, profiles and flat gaskets for Agricultural and Construction machinery.

O-Rings/ Round Cords 8

Hydraulic Seals 11

Elastomeric Profiles 9

Cartridge Radial Shaft Seals 12

Rotary Seals 10

Flat Gaskets 13

APSOdrive® Drive Technology

Mechanical and electrical drive solutions for smooth operation along conveyer belts.

Timing & Transport Belts 14

V-Belt Drives & Pulleys 15

Chains & Sprocket Wheels 16

Couplings 17

Engineering services: Expertise all along the line

Technical industry expertise from around the globe that benefits our local customers:

- design-in and development support (CAD, CAE)
- experimental validation and virtual design
- material and compound specification
- industry approvals and certifications
- technical seminars and training courses

The perfect global production platform: High-quality components for the highest requirements

Angst+Pfister has production facilities in 15 countries worldwide. This global orientation provides our customers with the most cost-effective production environment – even before considering our competitive ability to meet quantity, logistic and quality requirements. Being a company that is certified according to ISO-9001:2000, we make every effort to completely meet the quality requirements of our customers.

Reliable logistics and customer focus worldwide

A comprehensive logistics infrastructure ensures that the right products are getting to their destination when and where they are required. Highly efficient processes, supported by an electronic order processing system, characterize the Angst+Pfister Logistics Center. Thanks to our extraordinary international network, a "just-in-time" delivery is supplied to all our customers, no matter the location.
